The Daily Mail 2011-11-24 : Matchmaking by mobile: [The software](#) could pave the way for love [Imagine](#) you heading off to a restaurant when your phone buzzes and suggests a different eaterie where you might meet so shares your passion for art and literature. [Sound](#) like the stuff of science fiction? Well, apparently not. [Scientists](#) devised software which will allow smart phones to do much more than keep you in contact with family and friend soon, they claim, phones will be helping users make new friends by suggesting places to go where people with interests are likely to congregate. [The system](#) – named... [more »](#)
